

6-9559

ATOMIC ENERGY COMMISSION CHAIRMAN JOHN A. McCONE, third from right, was a Y-12 Plant visitor last Wednesday. Other AEC and Union Carbide Nuclear Company officials who accompanied Chairman McCone on his inspection tour of the Y-12 Plant were, from left, Dwight W. Ink, special assistant to the chairman; Logan B. Emlet, Production Manager for UCNC; S. R. Sapirie, manager, Oak Ridge Operations for the AEC; Y-12 Plant Superintendent John P. Murray; Clark E. Center, UCNC Vice President; and Dr. Frank K. Pittman, director of the AEC division of reactor development.

Y-12 Plant Host To AEC Chairman John A. McCone On Visit Last Week

Commission Head Makes First Inspection Of Carbide Ridge Installations On April 8

The Y-12 Plant was host last Wednesday, April 8, to Atomic Energy Commission Chairman John A. McCone, who made his first inspection tour of Carbide facilities in the Oak Ridge area. He was a guest at luncheon at the Y-12 Cafeteria and was escorted through the plant by Plant Superintendent John P. Murray and division superintendents.

Chairman McCone toured the Oak Ridge Gaseous Diffusion Plant on the morning of his visit and after lunch inspected facilities of the Oak Ridge National Laboratory in the Y-12 Plant and at the main ORNL site.

The official party visiting the Y-12 Plant included the AEC Chairman, his two aides, Dwight W. Ink, special assistant to the chairman, and Dr. Frank K. Pittman, director of the Commission's division of reactor development; S. R. Sapirie, manager of the AEC Oak Ridge Operations; Clark E. Center, vice president of Union Carbide Nuclear Company; and Logan B. Emlet, manager of production for the Oak Ridge UCNC plants.

Chairman McCone took the oath of office as head of the Atomic Energy Commission on July 14, 1958. He succeeded former Chairman Lewis A. Strauss, who resigned. Prior to his appointment to the AEC he was under-secretary of the Air Force from 1950 to 1951 and in 1954 headed the state department public committee on personnel.

The AEC chairman came to Oak Ridge from New Orleans, where he had spoken on April 7. He left for Washington after his visit to the UCNC plants.

NOMINATED AS "OUTSTANDING Member Of The Year" by the Oak Ridge Chapter of the National Secretaries Association is Geneva C. Carter, above. She is secretary to Jack M. Case, Superintendent of the Mechanical Operations Division. She is one of two candidates nominated for the honor by the society membership.

NSA Nominates Y-12er 'Outstanding' Member

Geneva Carter Honored By Oak Ridge Chapter

A Y-12 secretary, Geneva Carter, has been nominated as "outstanding member of the year" by the Oak Ridge Chapter of the National Secretaries Association (International). She is one of two candidates for the honor, with the winner to be announced at the chapter's observance of Secretaries Day next Wednesday night, April 22. On this date the chapter will hold an open house meeting at 8 p.m. in the Continental Room of the Oak Terrace.

Voted On By Chapter

The other candidate for "outstanding member of the year" is Erma S. Howe, employed at Oak Ridge National Laboratory. The candidates were nominated and voted on by the chapter membership but the name of the winner will not be announced until the meeting next Wednesday night, when the victor will be announced and crowned.

All secretaries in the Oak Ridge area, both members and non-members of the NSA, are invited to attend the open house meeting. The program will include a fashion show and the awarding of a \$200 secretarial scholarship to a high school student selected from applications reviewed by the chapter's educational committee.

The Y-12 nominee for "outstanding member of the year" is secretary to Jack M. Case, Superintendent of the Mechanical Operations Division. She first came to Y-12 back in 1943, then resigned in September, 1949, and returned to work for Carbide in September, 1950.

'Need To Know' Question Vital For Security

The old saying that—

"Three can keep a secret if two are dead," carries things a bit too far for practical purposes. Nevertheless, securitywise, it contains a big grain of truth.

The possibility of compromising classified information in the Y-12 Plant—or elsewhere throughout the Atomic Energy Commission and its contractors—increases as the number of persons that have access to that information increases. This number, therefore, should be kept as small as possible.

Two questions should be asked.

Do I really have a "need to know" when I ask for access to classified information in the possession of someone else.

Does the person asking for access to classified information in my possession have a "need to know?"

Unless the answer to the two questions is "yes," disclosure of classified information cannot be justified by either party.

Before you act—think—is there a "need to know."

UCC Will Build New Plant In Melbourne, Australia

Union Carbide Corporation will build a new polyethylene plant in Melbourne, Australia, with operations expected to begin early in 1961. The plant's output will contribute to the expanding activities of UCC's Australian affiliate, Union Carbide Australia, Ltd., which will erect and operate the facility.

The initial production capacity of the new plant will be about 15,000,000 pounds per year. It will receive its raw material ethylene from a proposed new unit of Vacuum Oil Products, Ltd., an affiliate of Standard Vacuum Oil Co. Part of the new plant's new production will go into the New Zealand market.

Lois Secrist Is First Y-12er To Complete Work On UT Degree Under UCNC Aid Program

Fine Grades Are Made In Accounting Classes

Y-12's first employee to complete work on a University of Tennessee bachelor of science degree entirely under benefits offered by the Union Carbide Nuclear Company Educational Assistance Program is Miss Lois Jean Secrist, of the Tabulating Services Department. Enrolling in the first Y-12 group attending the university under the program early in 1956, Miss Secrist advanced steadily with classroom and correspondence work in the division of university extension of UT to receive her coveted degree in accounting from the College of Business Administration on March 21.

3.6 Average For Three Years

The Company can well be proud of the fine record established by Miss Secrist during her studies at UT for three years—and she also can point with pride to her accomplishments at the university. Over the three-year period her marks averaged 3.6, which is above a B average in studies. Then in her senior year she compiled a 3.16 average in the several courses required to lead to her degree.

The Y-12er is quick to give credit to the UCNC Educational Assistance Plan and its benefits for helping her attain her degree.

"I certainly am most grateful to the Company for providing this help to me in my studies," she said last week.

Narrowly Escaped Accident

An Oak Ridge resident, Miss Secrist attended classes both in Oak Ridge and at the university in Knoxville, and in the meantime continued her work in the Y-12

PRIMED UP AND PROUD is Y-12er Lois Jean Secrist, who received a B.S. Degree in accounting from the University of Tennessee March 21. She is the first Y-12er to complete work on a degree at the university under benefits offered by the Union Carbide Nuclear Company Educational Assistance Program.

Cleaner Plant Makes Better Safety Record

Clean-Up Week Starts In Y-12 Next Monday

The success of the annual Spring Clean-Up Week observance in the Y-12 Plant Area almost always is reflected in the plant's safety record—as the efforts to eliminate rubbish, trash and excess materials to eradicate potential accident and fire hazards consistently tend to make the plant a safer, cleaner and more attractive place in which to work.

Coordinators Head Campaign

Clean-Up Week will get underway bright and early next Monday morning, April 19, and continue through Saturday, April 25, under the watchful eyes of fire, safety and security coordinators in the various Y-12 divisions and those of the Oak Ridge National Laboratory stationed in the Y-12 Area. The campaign will be assisted by the Y-12 Fire Department.

The Clean-Up drive really got

SUBSTANTIAL, TASTY DISHES SET FOR SPECIAL LUNCHES

Substantial and tasty Spring dishes will be offered as entrees on the 50-cent Special Lunches to be served at the Y-12 Cafeteria tomorrow, Thursday, April 16, and next Tuesday, April 21. For the main dish on the Special Lunch tomorrow chicken a la king on toast will be served. Roast beef hash will be the entree next Tuesday. Each Special Lunch also includes one vegetable, choice of salad or dessert and rolls and butter.

ORNL Man Is Selected Legionnaire Of The Year

A well-known Oak Ridge National Laboratory employee in the Y-12 Plant Area has been named Legionnaire of the Year by Atomic City Post, No. 199, American Legion, at a recent post meeting. He is Gerald Goldberg, adjutant of the post, editor of the post's monthly newspaper and chairman of Boys' and Girls' County, a Legion citizenship project.

Goldberg has been active in state and national Legion circles and is a member of the Forty and Eight Society, the Legion's honor group.

The Atomic City post now has about 500 members.

Five Y-12ers Promoted Effective On April 1

Mechanical Operations Men Made Foremen

G. H. Blakely J. P. Cavanaugh

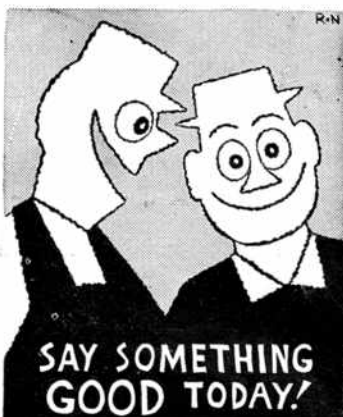

R. L. Gouldy I. B. Hogg

Five Y-12ers in the Mechanical Operations Division received promotions to the rank of foremen, effective April 1. They were George H. Blakely, Z Area; Joseph P. Cavanaugh, TW Shop; Robert L. Gouldy, General Machine Shop; Ira B. Hogg, General Machine Shop; and L. S. Nabors, Alloy Shop.

Blakely came to work in Y-12 on June 6, 1955. He was promoted to his new post from the rank of welder. Cavanaugh was an experimental machinist before his advancement and was employed on November 16, 1953. Gouldy also was an experimental machinist prior to his promotion and has been a Y-12 employee since May 21, 1951. Hogg came to work in Y-12 on April 17, 1950, and likewise was an experimental machinist before April 1. Nabors is another former experimental machinist and his employment dates from January 22, 1951.

Ideas are said to be like children—no matter how much one admires someone else's, one likes one's own best.

Now that the spring and summer season is just getting underway down at "South Oak Ridge" (Daytona Beach, Fla.) here's the first flash from that delectable vicinity and its feathered denizens—of which there are flocks and flocks—

First pelican: "That's a fine fish you have there."

Second pelican: "Well, it fills the bill."

So—hoping the following paragraphs will fill the bill for the customers of this Colyum—here goes—

MECHANICAL OPERATIONS

The TW Shop reports D. L. Jenkins helped a friend build a boat while the Y-12er was vacationing . . . Nobody knows the vacation destination of H. Crutchfield . . . The Proud Pop of the week around the shop is E. C. Pate, who became father of an eight-pound, three-ounce boy at Oak Ridge Hospital on March 28 . . . More about vacations—but is this a vacation for C. T. Eldridge at home while his youngsters have the chicken pox? . . . Much better off are J. C. Kendricks and E. V. Hawk, gone fishing . . . Also James M. Patterson, just resting up at home in Oak Ridge . . . Get well wishes are extended G. B. Blakeley, ailing in Room 202 in St. Mary's Hospital in Knoxville . . . Sympathy is sent J. L. Donahue, whose mother died last week; and also to J. V. O'Neil, whose father succumbed a few days ago.

Vacations are surging into the ranks of the General Machine Shop and the Shoppers are scattering far and wide . . . J. H. Lauderdale and P. W. Zurcher spent last week resting up in Knoxville . . . R. H. Bradshaw and O. Mack also were vacationing last week but didn't report their plans . . . Fishing is occupying Woody Chilcoat and George Stines . . . The Florida vacationers are Clyde McLeomore, Millard Maples and Cliff Herrell . . . L. P. "Pete" Vines is taking this week off to paint the interior of his Oak Ridge home . . . W. J. "Bill" Barker is another industrious worker around his house this week . . . Meanwhile Russell Allstun is believed to be invading lakes hereabouts in search of elusive fish . . . R. L. Luttrell is taking it easy at home in Lenoir City . . . H. E. Parrott was mum on his vacation plans for the week . . . Those po' lil' ol' fish around these parts still will have a rough time next week as G. W. Brewer is planning to try out the surrounding lakes . . . D. L. Hall will base his finny forays from Oak Ridge . . . S. W. Lindsay is doing likewise from Lake City . . . K. M. Adkins and R. F. Graham are planning on staying at home in Oak Ridge next week and Alexander Berry and C. A. Stanaland didn't announce their plans . . . Condolences are extended H. D. Dobbs, whose brother, Leonard, died in Baltimore, Md., March 23 . . . Likewise to L. B. Keith, whose mother-in-law, Mrs. Monroe, of Knoxville, succumbed March 30 . . . Also to B. O. Crump, whose sister, Mrs. Fred Kerr, died at her Asheville, N.C., home April 1.

Z Area sends rapid recovery wishes to the ill father of Al Brown . . . Vacationers include B. M. Finger, J. T. Michael, J. T. Parker and D. R. Dunn, but they didn't say where they were going. It was learned that Jimmy Ralston went to Florida and Bobby Tichenor to Virginia for their rest periods . . . All Z Area folks join in sending get well wishes to John Trent, in Oak Ridge Hospital.

Danty Cook, Alloy Shop, heard a rumor that fish were biting so he took off for a week to investigate—something fishy, there . . . C. D. Wells is playing it cool around Oliver Springs while vacationing . . . J. B. Boles is doing

likewise over at Rockwood . . . C. W. Styles has a lot of straightening-up to do around his new home, his wife says, while he is vacationing . . . R. E. McJunkins is taking it easy down at Philadelphia, Tenn., and D. D. Keith is vacationing at points unknown . . . Get well wishes go to R. E. Jones, on the puny list with laryngitis.

Another report from Daytona Beach (Chamber of Commerce please note as the Colyum Conductor is planning to invade that sector come July).

Some of the gals down thataway think the new bathing suits are indecent—others have good figures.

Oh well, you figure it out.

TECHNICAL

Special Projects is SO sorry to say that Don Woodbridge missed several day's work because of sacroiliac aches and pains—but pals TOLD him about messing around with that hula hoop . . . Helen Stone is having the time of her life hat hunting and making party arrangements for a niece who is getting married this month . . . The department's first vacationer of the year, George Lockhart, missed a lot of fine golfing days around Oak Ridge by traveling to North Carolina . . . The Colyum's agent in SP says she has heard tales that Grady Bennett, Harvey Hankins and Larry Rinderer have given up their art (?) appreciation course for study of the Einstein theory . . . In a period of relaxing from this chore Hank and Grady have been indulging in the are of angling with Hank bringing home 18 crappie from Cherokee and Grady netting 16 of the same specie from Norris . . . From Paul Melton's hair-do, it is surmised that he's either seen a ghost or else that rabbit's foot he's been munching on for so long is beginning to take effect . . . Also, rumors are sweeping the group that H. E. Buckminster has been quietly conversing with one who is "down under" . . . Jay Fielden must still be promoting "fun in the sun and on the water" as Helen Gordon and her hubby are window shopping for a boat . . . Jay also has been cultivating detergent-like hands these days from landscaping labors . . . Then Bobby Bagwell shows up with grease-incrusted digits of an auto mechanic from the super-valve job he has been installing in his car . . . Sam Rea has become a sower of seed—Bermuda grass . . . In case Jim Warner seems fidgety these days, it's not ants but anticipation—waiting for the opportunity to buy that de luxe stereophonic equipment he has been drooling over—and how many of you folks heard Jim singing bass in that minstrel show over a Knoxville radio station recently?

More advice from Daytona Beach.

When a man meets a lady down there and looks her straight in the eye—it is time she starts doing something about her figure.

PLANT ENGINEERING

Mechanical Engineering reports the new man of the week is W. C. Collette, who will be commuting from Fountain City where he, the missus and two chillun make their home—welcome in, W. C. . . . The John Thomas family and his father are seeing if all they say about Daytona Beach is true—they are sojourning there visiting kin folks and splashing in the briny Atlantic . . . Lillian Higgins is back at her board after a week of relaxing at home . . . Eleanor Bennett visited her parents in Harri-man over the past week end and while there she bade farewell to her brother, John, who left for Ft. McClellan, Ala., for a two-year

Miss Margaret Anderson

Y-12er's Daughter Elected To National Honor Society

Miss Margaret (Peggy) Anderson, 16, daughter of R. V. Anderson, an instrument mechanic with the Y-12 Electrical Maintenance Department, recently was elected to the National Honor Society. Miss Anderson is a junior at Oak Ridge High School and was one of 20 members of that class of 385 selected for the scholastic honor.

Miss Anderson is business manager for The Oak Leaf, the high school newspaper. She also is a member of the Penguin Sorority, the Modern Dance Club and the Latin Club at the high school. The Y-12er's daughter is treasurer of the C.Y.O. at St. Mary's Parish.

She was the Oak Ridge entrant in the 1955 Appalachian Region of the national spelling contest conducted by the Scripps-Howard newspapers.

stretch in the U.S. Army . . . Dick Wyrick was on the ailing list last week but seems his old self again . . . Nora Hurst and family took a week-end tour to enjoy the scenery of Norris, Lake City and way stations . . . The marriage of the M. B. Hiltons has come of age now that they have celebrated their 21st wedding anniversary—congratulations and many happy anniversaries.

Fred Stout, Contract Administration Engineering, last week celebrated the arrival of a seven-pound daughter to the family, born April 3 or thereabouts in Oak Ridge Hospital, and hadn't been named at press time of the Colyum last week. Fred passed out segars to one and all.

MAINTENANCE

Now, here's a real "first" for the Colyum—publication of a picture of a youngster who was just 20 minutes old when the photo was snapped. The tot is Lori Ann Emmert, whose grandpop is F. J. Kilpatrick, of Mechanical Maintenance, and whose Mom is Mrs.

Lori Emmert

Bobby Emmert, Sacramento, Cal., daughter of the Y-12er. The Emmerts sent along a fancy announcement in the form of a ticket to "their first production, Our Million Dollar Baby, starring Lori Ann Emmert, April 1, 4:08 a.m., weighing 10 pounds, five ounces with two blue eyes"—and a footnote that "the management reserves the right to cancel personal appearances if the star is sleeping." Quite clever all around and Grandpop sure is proud as proud can be.

Wanda Valentine did a swell job of subbing for Rae Chapman in handling news last week from Electrical Maintenance—Rae is ailing, you know, and is recuperating at home after a recent operation and receiving lots and lots of get well wishes . . . Meanwhile back at the plant, rapid recovery

Continued on Page 4

Get well wishes are extended the following Y-12ers who were patients last week at the Oak Ridge Hospital:

J. F. Trent, Z Area; E. G. Blanton, Product Processing; H. D. Pierce, Process Maintenance; A. T. Goodwin, Mechanical Maintenance; R. S. Owens, TW Shop; E. J. Coffman, Sunflower Shop; S. L. Jamruz, Research Services; R. H. Sharp, Janitors.

Dinner Dance Set Friday By ORNL Chemistry Group

The Analytical Chemistry Division of the Oak Ridge National Laboratory, with many employees in the Y-12 Plant Area, will hold its annual dinner dance on Friday night of this week, April 17. The semi-formal affair will be held at the Deane Hill Country Club with music to be provided by the Dave Blessing orchestra, the leader being a Y-12er.

A social hour will be held from 7 p.m. to 8 p.m., a buffet supper will be served from 8 p.m. to 9 p.m. and dancing will run from 9:30 p.m. to 1 a.m.

Y-12ers With 15, 10 Years Company Service

Congratulations are offered Y-12 employees who will complete 15 years of Company Service within the next few days. There are no Y-12ers who will observe their 10th employment anniversary period during the next week.

15 YEARS

Juanita W. Moore, Production Analysis, April 15.

Hazel T. Lane, Industrial Relations Administration, April 15.

Hugh L. Montooth, Guard, April 17.

Mary S. Gillham, Special Testing, April 17.

Carl A. Cooper, Sr., Industrial Relations Administration, April 17.

Richard A. Walker, Superintendents, April 17.

Fred D. Williams, General Machine Shop, April 18.

Lucille C. Whitman, Mechanical Operations Division, April 19.

Lillian H. Higgins, Mechanical Engineering, April 20.

George Howard, Buildings and Grounds, April 20.

Robert H. Evans, Tools, April 21.

Howard L. Martin, Industrial Engineering, April 21.

Jupiter Radio Noise Storms Is Seminar Topic

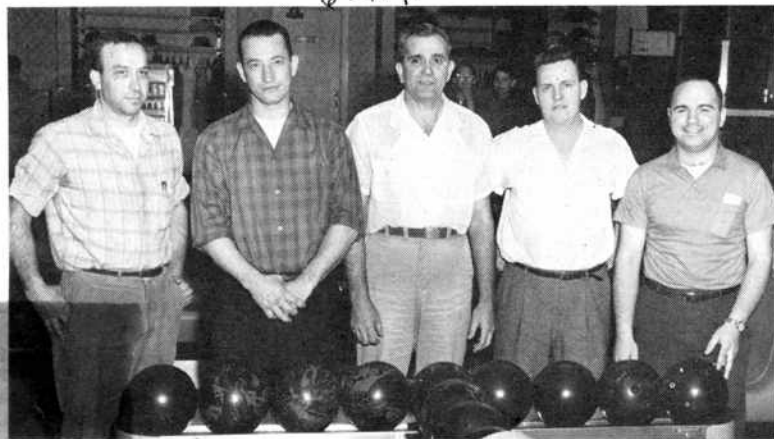

"Radio Noise Storms on Jupiter" is the interesting subject for discussion at the physics seminar meeting of the Physics Division of Oak Ridge National Laboratory this week. The meeting will be at 3:15 p.m. Friday, April 17, in the auditorium of Bldg. 4500, ORNL. The speaker will be T. D. Carr, of the University of Florida, Gainesville. All Y-12ers interested in the topic are invited to attend the meeting.

"BO" Frank Beck

"WHO WANTS TO GRUB AROUND ALL HIS LIFE WHEN HE CAN INSURE HIS FUTURE BY JOINING THE PAYROLL SAVINGS PLAN NOW!"

MAVIS KOONS WINS UCNC WOMEN'S PIN CROWN

THE TWO TOP TEAMS IN THE BUSH LEAGUE AFTER timber toppling on April 6 were the Beavers, left, and the Balls O' Fire. From left, the Beavers are Paul Rudd, Bill Maxey, Max Bezik, Al Smith and Frank DeRosa. The beaming Balls O' Fire,

although beaten by the Beavers in the April 6 alley activities, still seem cheerful. From left they are Bill Belvin, George Cantrell, R. D. Smith, Jim Charles and J. D. Franklin. The Beavers took over the loop lead April 6.

ORGDP Man Sets Record Winning Championship

J. R. Bennett Knocks 2023 Pins; Y-12ers Trail In Most Scores

Mavis Koons, superlative Y-12 feminine bowler, won the women's all events title in the All-Carbine Bowling Tournament for the meet championship. Her scratch tally was a fine 1481. In the men's division, the All - Carbine championship went to J. R. Bennett, Oak Ridge Gas-eous Diffusion Plant, who fired a tournament record-breaking score of 2023 scratch and 2042 with handicap. Bennett replaced Len Hart, Y-12, as title holder.

Mavis Koons

Other Y-12 timber topplers fell by the wayside, judging by incomplete scores available Monday morning. Louise Eubanks and Shirley Brown, both of Y-12, were second and third, respectively, in women's singles handicap scoring with 646 and 640. Kay Carter, ORGDP, took top honors in this class with 651. Alice Logan, ORGDP, took first place in all events, handicap, with 1888.

In the preliminary handicap scoring, ORGDP bowlers took most top spots in the tournament in both the men's and women's divisions. Hoffman-Lane were first in men's handicap doubles with 1349 and in second place were Rathbone-Castle. ORNL got into the act when Payne-LeMaster placed third at 1209. In men's singles, handicap, Bennett was far out in front with 773 and was followed by two other ORGDP pin-men, L. A. Owens 730 and L. Mitchell 722.

ORGDP women took first and second places in women's doubles, handicap, Kemper-Logan taking first at 1219, followed by E. Gilliland-D. Marcus at 1218. Ballard-Gregg, ORNL, were third with 1205.

Pistol Instruction Course Is Offered

A basic target pistol training school is being conducted by the Oak Ridge Sportsmen's Association for men and women more than 18 years of age. Qualified instructors will conduct the series of five classes to be held at the ORSA on April 16, 23 and 30 and May 7 and 14.

The classes will start promptly at 7:30 p.m. with the first two being held at the club house and the remainder on the indoor range of the association. Pistols will be available but class members must provide their own .22 calibre standard velocity ammunition. A \$1 fee will be charged non-members of the ORSA to cover cost of targets, lights and other range expenses.

The course is intended especially for beginners and any Y-12er wanting further information is asked to communicate with Carl G. Brewster, Medical Department, plant phone 7754.

Be diligent and careful in your application of security regulations.

SLOW DOWN and LIVE!

First Golf Meet Of Year Set For April 25 At Ridge

The first Y-12 Plant Golf Tournament of the 1959 season has been set for the Oak Ridge Golf and Country Club course for Saturday morning, April 25. This is the first of five tournaments to be held for Y-12ers during the summer season and the dates and places of the others will be announced later.

The Oak Ridge tournament will start bright and early, the first foursomes being scheduled to tee off at 6 a.m. and all players are expected to be underway not later than 9:30 a.m. The greens fee for non-members of the club is \$3.

Four Divisions Planned

The competitors will be divided into four divisions, based on handicaps. After all players have started one-fourth of the players will be placed in each division. Handicaps will be given out by the official scorer at the start of the tournament.

Prizes of golf balls will be awarded the first four low scorers in each division. Prizes also will be awarded for the most and second most pars posted for 18 holes.

April 24 Is Deadline

The deadline for entering the tournament will be noon on Friday, April 24. All play will be in foursomes and all groups must communicate with the Recreation Department, Room 265, Bldg. 9704-2, plant phone 7100, to have their tee off times scheduled. Every foursome is urged to be ready to start 10 minutes before scheduled time and if any group is not ready to start on schedule, it will be moved to the bottom of the starting list.

Beavers Blast Back To Bush Loop Lead

The Beavers blasted right back into the lead of the Bush League of Y-12 bowlers April 6 by pinning a three-point defeat on to the Balls O' Fire. The SNPFT outfit shut out the Lucky Five for four and the Hi Balls handed the Bees a similar defeat. Three-point wins also were scored by the Alley Choppers over Bldg. 9212 and the Inspectors over the Nine Pins.

The Alley Choppers recorded the best series scores of the night with 2280 scratch and 2871 handicap. They were aided by B. Hagood with a 536 scratch series, boosted to 650 with handicap. The Hi Balls had the high team games of 935 and 1027. Jack Forseman, Lucky Five, had a 209 scratch game and W. U. Pokela, SNPFT, a 244 handicap game.

League standing follows:

Team	W	L
Beavers	40	24
Balls O' Fire	39	25
Nine Pins	37	27
Bldg. 9212	35	29
Alley Choppers	32	32
SNPFT	31	33
Bees	29	35
Hi Balls	26 1/2	37 1/2
Lucky Five	25 1/2	38 1/2
Inspectors	25	39

Scrappers, Clippers Compete For Crown In Mixed League

The championship of the Mixed League of Y-12 men and women bowlers will be determined tonight, Wednesday, April 15, in a roll off between the Scrappers and Clippers. The Scrappers won the second half of the season title last week, although losing three points to the Nip and Tucks. The Clippers are a dangerous team on the alleys, although they faded in the second half of the season after walking away with the first half crown.

The Alley Cats held on to a tie for second place in the loop last week, sharing it with the Nip and Tucks, as the Cats clawed the Pin Plasters for three points. The Phantoms pinned a three-point loss on to the Clippers, passing the losers on the ladder, and the Rockets went into orbit over the ABCs for a four-point whitewash triumph.

Louise Eubanks, Alley Cats, swept all scoring honors for women with 179, 230, 458 and 611 across the board. The men's scoring was split four ways. Morgan, Scrappers, had a 211 scratch game. Scott, Nip and Tucks, posted a 239 handicap game. The top scratch series was a 531 by J. C. Bryan, Clippers; and Joe Beever, ABCs, came through with a high 643 handicap series. The Alley Cats had top handicap team scores of 791 game and 2249 series. The Nip and Tucks' 626 scratch game was best of the night as was the 1781 scratch series by the Scrappers.

League standing follows:

Team	W	L
Scrappers	35 1/2	19 1/2
Alley Cats	33	23
Nip and Tucks	33	23
Rockets	28	28
Pin Plasters	25	31
Phantoms	25	31
Clippers	24	32
ABCs	20 1/2	35 1/2

Rainbow Trout Put In East State Lakes

Thousands of fingerling trout have been planted in several East Tennessee lakes and streams, according to the State Game and Fish Commission. Of particular interest to Y-12ers is the placing of some 15,000 rainbow trout in the cold waters of the Clinch River below Norris Dam.

South Holston Lake, near Bristol, also has received 15,000 three-inch rainbow trout. Wautauga Lake, above Elizabethton, has received 25,000 fish and Wilbur Lake an additional 15,000 rainbows.

Friday Deadline To Enter Softy Loop; Eight Teams In

There still are openings for teams in the Y-12 Plant Softball League, but departments or groups wanting to have representation in the circuit have only until 4 o'clock Friday of this week, April 17, to get under the wire with their entries. Eight teams already have entered the loop.

Practice sessions already have started at Pinewood Park, the home grounds for the Y-12 loop for several years. The grounds are being improved and will be in tip-top shape for the opening of 4.

The latest team to enter the loop is the Sportsmen, to be managed by Herb Oliver. Others in the fold and their managers are Generals, M. L. Crawford; Atoms, D. W. Daws; Rebels, E. M. Miller; Whiz Kids, J. D. Collins; Reactors, Harley Law; and unnamed teams to be led by T. A. Pica and Harley Orange.

Teams wishing reservations for practice time at Pinewood Park are asked to communicate with the Y-12 Recreation Department, Bldg. 9704-2, Room 265, plant phone 7100.

Turkey Hunting Season Is Open

Tennessee's 1959 turkey hunting season now is open, according to the State Fish and Game Commission. Areas where no quota turkey hunts will be held and the dates for hunting include the Catoosa Wildlife Area, April 15-18, April 24-25 and May 1-2; Falls Creek Falls, April 17-18, April 24-25 and May 1-2; Ocoee April 16-18, April 23-25 and April 30 and May 2.

The bag limit on turkey is one gobbler per person per season. All kills must be checked through checking stations. Daily hunting hours are from sunrise to sunset. Hunters may check in each morning after 5 a.m. but must check out by 7 p.m. All hunters must have a valid wildlife area hunt permit, a current state hunting license, a big game stamp and be at least 16 years old. Firearms are limited to 20 gauge shotguns or larger using shells with No. 2 or smaller shot. No rifles are allowed.

Sizzling Scoring Marks Classic Loop; Bumpers Hold Lead

There was some sizzling scoring in the weekly alley antics of the Classic League of Y-12 bowlers last Thursday night at the Ark Lanes as J. P. Smith, of the Markers, came through with a 257 scratch and 283 handicap game and 701 handicap series and Wayne Groppe, Sportsmen, with a fine 632 scratch series. After the pins stopped toppling the Bumpers were still on top of the standings with a three-point win over the Cubs, the Rebels had advanced to second with a similar win over the Smelters and the Markers settled in third place in the tight race by trimming the Playboys for four.

In other matches the Tigers almost climbed out of the cellar by beating the Has Beens for three and one-half points and other three-point victories were posted by the Sportsmen over the Swingsters, Eight Balls over the Screwballs and All Stars over the Wolves. The Wasps and Rippers rolled to a two-point-each deadlock.

In team scoring the Bumpers came through with the all-important high scratch series of 2697. The Sportsmen had the best scratch game of 932 and handicap series of 3078.

Team	W	L
Bumpers	34	14
Rebels	31	17
Markers	32	16
Sportsmen	30	18
Swingsters	29	19
Rippers	26	22
Wasps	26	22
Screwballs	25	23
Smelters	25	23
Eight Balls	26	22
Has Beens	21 1/2	26 1/2
All Stars	20	28
Playboys	15	33
Wolves	16	32
Cubs	14	34
Tigers	13 1/2	34 1/2

Good Trout Fishing Seen For Tellico Area Season

Y-12 trout fishermen intending to enjoy the sport in the Tellico Wildlife Management Area are reminded that special fishing regulations are in effect in that area. Fishermen using the Tellico area must have not only a valid state fishing license with a cancelled trout stamp, but also must have a daily management area permit.

The season now is open and extends through September 7. Fishing days are on Thursdays, Fridays, Saturdays, Sundays and legal holidays. Creel limits are seven trout per day, and with the exception of North River and its tributaries, there are no size limits.

Fishing in North River and its tributaries is limited to artificial lures and for this watershed the nine-inch size limit on rainbow and brown trout and seven-inch limit on brook trout is in effect. Other Tellico streams where special regulations apply include Roaring Branch, Kirkland Creek, Laurel Branch, McNabb Branch, Falls Branch and Meadow Branch, which are closed to all fishing. Special regulations also apply to Sycamore Creek and Jake Best Creek, which will open to fishing only on April 17 and 25, May 3, 7, 15, 23 and 31.

Trout fishing should be good in the Tellico area this season. During the past few weeks the State Game and Fish Commission has placed some 9,500 adult trout in the streams of that area. These fish, mostly rainbows, were well conditioned in the trout raceways at the commission's Pheasant Field rearing station before their release.

Rides Wanted, Offered

Riders wanted or will join car pool from North Hills, Knoxville, or Fountain City to Central Portal, H Shift. F. E. Clevenger, plant phone 7-8525, home phone Knoxville 2-7393.

Ride wanted from Sevier Ave. or Hillside Drive, Knoxville, to North or Central Portal, straight day. Evelyn Lowery, plant phone 7-8315, home phone Knoxville 7-5693.

Car pool members wanted from Ford Addition, Loudon County, to North Portal, straight day. L. E. Kinkaid, plant phone 7-8265, home phone Lenoir City YU 6-8223.

Around May 1 five riders will be available from North Hills section, Knoxville, via U. S. Highway No. 25-W to Central Portal. If interested call Madeline Keck, plant phone 7187, home phone Knoxville 2-8291.

Ride wanted or will join car pool from vicinity 938 Moody Ave., Knoxville, to Central Portal, straight day. D. B. Ham, plant phone 7225, home phone Knoxville 7-8192.

Two car pool members wanted from West Haven, Knox County, to Central Portal, straight day. R. A. Chittum, plant phone 7-8382, home phone Knoxville 5-2848.

Some folks speak from experience. Others—from experience, don't speak.

Dr. George H. Cady To Address ACS Meet

Session Is Scheduled Tonight In Oak Ridge

Dr. George H. Cady, of the University of Washington, will speak at a meeting of the East Tennessee Section of the American Chemical Society in Oak Ridge tonight, Wednesday, April 15. The meeting will be at 8 o'clock at the Robertsville Junior High School and will be preceded by a dinner at 6:15 o'clock at the Oak Terrace.

Dr. Cady's subject will be "Fluorocarbon Chemistry."

The speaker was born in Lawrence, Kan., in 1906, where his father was a professor of chemistry at the University of Kansas. Dr. Cady also attended the University of Kansas, where he obtained his A.B. and M.A. Degrees. He went to the University of California for his Ph.D. Degree.

He later taught at the University of South Dakota and Massachusetts Institute of Technology and beginning in 1934 he became a research chemist. He became a member of the faculty of the University of Washington in Seattle and since 1947 he has held the rank of professor. During World War II he was on leave to work with the Manhattan Project.

Daffodils Blossom Into C Loop Lead

The Daffodils bloomed right out in the lead of the C League of Y-12 keglers on April 6 by inflicting a four-point whitewash defeat on the Engineers—the second week in a row that the losing team has been handed such a dose. The Chillers, previously tied with the Daffodils for the top spot on the ladder, dropped to second place by taking only three points from the Wacos. Murderer's Row edged into third place and the Sunflowers into fourth as they trimmed the T Squares and B Shift, respectively, by three points. The lowly Alley Cats and Knot Heads also annexed three-point wins over the Goof Balls and Dry Hides.

J. B. Peters, Murderer's Row, took most individual scoring honors with a 238 scratch and 263 handicap game and 581 scratch series. J. D. Collins, Sunflowers, burst out with a 662 handicap series for tops. Murderer's Row had the best team game scores of 895 and 1019 and the Sunflowers' series of 2505 and 2931 were best for the night.

League standing follows:

Team	W	L
Daffodils	25	7
Chillers	24	8
Murderer's Row	22	10
Sunflowers	20	12
Engineers	19	13
B Shift	19	13
Wacos	16	16
Goof Balls	13	19
Dry Hides	10	22
T Squares	9	23
Alley Cats	9	23
Knot Heads	6	26

of great benefit to her in the future.

Miss Secrist's studies and accomplishments at the University of Tennessee not only reflect credit on her perseverance and intelligence. They also exemplify the goal of the Educational Assistance Program—which is to aid employees pursue studies in such courses that will enable them to be more proficient in their present jobs and to prepare them for advancement.

Since the UCNC Educational Assistance Program was launched in Y-12 in 1956, approximately 800 applications for benefits have been approved. Most of them have been for courses offered at the University of Tennessee or the Adult Education Program of Oak Ridge—with a number of Y-12ers also taking approved correspondence school courses.

ANOTHER CANDIDATE for top honors in the walleye pike class in the Y-12 Annual Fishing Contest is this beauty taken by J. L. Smith, Electrical Engineering. The fish was caught from Norris Lake near Point No. 32 with a white polar bear jig.

Lois Secrist Earns UT Degree Under Aid Plan

Continued from Page 1

Plant. Commuting to Knoxville for classes naturally posed quite a problem to the Y-12er—but only one icy afternoon last winter stands out in her memory as an uncomfortable incident in her attendance. On that day, she recalled, she narrowly escaped a wreck following a skid, but managed to reach the university safely and on time for her class work.

On that occasion, she recalls, she was scheduled to make a talk at a seminar at the university.

"I just made it," she says, "and didn't have time to get nervous over a possible wreck."

Father Is Tennessean

Miss Secrist's father is a native East Tennessean who went to Milwaukee, Wis., to study engineering. He met the Y-12er's mother there.

When Lois was three years old the family returned to Blount County where her father became associated with the Tennessee Valley Authority. Miss Secrist attended Prospect Grammar School at Walland and Porter High School at Maryville before enrolling at Tennessee Wesleyan College at Athens. She earned a two-year college degree from that institution in Associate in Arts.

She came to work for Carbide as a bookkeeper at the Oak Ridge Gaseous Diffusion Plant on March 30, 1953. On November 19, 1953, she was transferred to the Y-12 Plant.

Courses Prove Beneficial

Since beginning her studies at the University of Tennessee that culminated in her receiving the degree last month, she has found the courses taken to be of benefit in her day to day work with Tabulation Services in accounting and working on production reports. Of course, now that her university degree has been obtained, she expects the work taken at UT to be

wishes also are sent to S. H. Floyd, H. L. Vandergriff and J. E. Cartledge... Vacationers include J. R. Carriger, fishing and gardening around his home in Kingston...

A. D. Casey and family are visiting relatives in Middle Tennessee... B. E. Reneau is working around his Oak Ridge home... W. W. Pugh is spending his time in the cornfield at home in Maryville... Congratulations are in order for B. M. Cox—he became a grandpop, junior grade, April 3, when his first grandson was born in Piedmont Hospital, Atlanta, Ga.

Research Services extends sympathy to G. D. DeLozier, whose father died recently... Vacationers, who failed to file flight plans on leaving, include J. W. Woody, V. W. Arms, H. Jeffers and F. O. Gaddis... Rapid recovery wishes are sent W. T. Coward, D. F. Kirby, Sam Messamore, R. L. Oswald, A. E. Morton, E. F. Brooks, J. W. Howard, A. P. Waugh, W. T. Scandlyn and D. B. Blackburn... Newcomers by transfer from other departments welcomed last week are W. A. Fillers, J. W. Webb, L. Bowers, D. E. Drevden, B. R. Kitts, R. E. Hart, V. E. Carr and E. C. Johnson.

INDUSTRIAL RELATIONS

Guards J. T. Riddle, C. L. Cotter, F. A. Ruckart, H. L. Montooth and J. C. Booher scattered like a covey of quail when their vacation time arrived and didn't leave forwarding address any more than the aforesaid quail might when fired on by hungry hunters... Fireman L. H. Perry is a Knoxville vacationer... Get well wishes are extended Fireman C. A. Cook in Baptist Hospital, Knoxville... Guard J. C. Mitchell is welcomed back after an illness.

Many modern gals around Daytona Beach are said to know how to break dates—they go out with 'em.

FINANCE AND MATERIALS

Dot Connor, Plant Records, is vacationing down in Chattanooga on Moccasin Bend of the Tennessee River this week.

Eddie Pluhar, F. & M. Administration, who sure can talk a good fishing trip, regaled all who would listen last week about the feats he performed on a recent angling outing—he musta sent a large truck after the take of bass, crappie, waterdogs and everything else except a mermaid.

Vacationers from Stores include Floyd McKamey, E. D. Gilliard and A. P. Phillips—but didn't leave forwarding addresses... E. H. Steelman is on the sick list and is extended get well wishes.

It may be a little bit early for June bride jokes—but here's one that caught the fancy of the old CC (who probably has an ingrowing disposition anyhow).

June bride: "The two things I cook best are meat loaf and peach cobbler."

June groom: "Well, which is this?"

SHIFT SUPERINTENDENTS AND UTILITIES

Oscar Blackwell, Utilities, week ended in Louisville, Ky... E. M. Baird is planning a week-end trip to Dayton, Ohio... A. J. Edwards has purchased 5,000 red worms in preparation for a week end of fishing—the perpetual optomist...

J. A. Braden and E. F. Sosby are spending their long break fishing in the Catoosa area and C. H. Jarvis is prowling around various lakes in the territory... A. S. Howell plans to spend his vacation around home in Oak Ridge and—of course—doing some fishing... W. R. McCollister is on a fishing foray around Tellico Plains in search of trout... A. W. Byford is vacationing in Decatur, Ala., and Dayton, Ohio... C. Pitts is

ASM Chapter To Hear Talk By M. A. Scheil

National Trustee Set For Talk Here Tonight

Merrill A. Scheil, national trustee for the American Society for Metals, will address a meeting of the Oak Ridge Chapter of the ASM tonight, Wednesday, April 15. The meeting will be at the Oak Ridge Knights of Columbus Hall at 8 p.m. and will be preceded by a dinner at 6 p.m. at the Alexander Hotel.

The meeting of the Oak Ridge Chapter of the ASM will honor its own past chairmen and also national officers of the organization.

Scheil's subject will be "Aging Treatment Effects on the Corrosion of Austenitic Stainless Steel." The effects of stabilizing and aging treatments on the intergranular corrosion of various stainless steels as determined by the boiling nitric acid test will be described.

The ASM trustee is observing his 30th year of service with the A. O. Smith Co., Milwaukee, Wis. He obtained his B.S. and M.S. degrees from the University of Wisconsin.

Cleaner Plant Makes Better Safety Record

Continued from Page 1

underway last week, when inspection committees from many groups and departments began checking items in their areas and making recommendations wherever needed to do away with conditions that could produce fire or accident hazards. Thorough inspections also will follow the Clean-Up Week observance to insure that recommendations are carried out in the interest of safety and good housekeeping.

Coordinators Listed

Coordinators for Y-12 in the Spring Clean-Up Week observance are Nelson Tibbatts, Maintenance; Corum Scott, Finance and Materials; Paul Trebilcock, Chemical Operations; Fred Harmon, Engineering; W. E. Davis, Industrial Relations; R. P. Mann, Shift Superintendents and Utilities; J. E. Hensley, Technical; John Perry, Development; and B. W. West, Mechanical Operations. For ORNL the coordinators are John Lund, R. E. Feathers, D. E. Carpenter, Howard Hicks, Dan Ghormly, Jim Keeton, W. B. Pike, Jon Hamilton and W. O. Chandler.

Beaver Brook Loop Meet Set Thursday

Several Union Carbide Nuclear Company golfers residing in Knoxville and Knox County, including some Y-12ers, are expected to form another Company golf league—this one to play at the new Beaver Brook Golf and Country Club course in northern Knox County—at a meeting set for 7:30 o'clock tomorrow night, Thursday, April 16, at the clubhouse. The attractive club now has a sporty nine-hole course, soon to be expanded to 18 holes. The Beaver Brook club is located on Cunningham Road, about one mile west of State Highway No. 33, continuation of Knoxville's North Broadway.

visiting his parents in Whitesburg during his long break... C. A. Cox is enjoying a visit from his daughter and granddaughter from Atlanta, Ga.

H. D. Baker, Steam Plant, is vacationing at an unannounced location.

That travelin' man, B Shift Superintendent Finley Creigh, is vacationing up around his old stompin' grounds at Charleston and Ronceverte, W. Va.
